EXPERIENCE

Freelance

October 2021 - PRESENT

- Developed the front end for multiple large and scalable websites.
- Managed complex application state with Redux and React hooks.
- Built client-side nested and dynamic routes using React Router.
- Connected to backend API's through CRUD HTTP requests.
- Engineered responsive, multi-platform, and SEO friendly websites.

Programming Tutor

January 2022 - PRESENT

- Tutored clients for CSS, Javascript ES6+, React, Redux.
- Simplified difficult programming concepts including state management, responsive design, and scalability.
- Taught debugging best practices using redux dev tools.
- Provided website UI designs to 1:1 and reviewed code through weekly code reviews.
